

Vitamin C helps relieve mild upper respiratory conditions

Numerous studies provide substantial evidence supporting the health benefits of Vitamin C. These include reducing the severity and duration of symptoms of the common cold. (not to be used in children under 2 years of age without medical advice) If symptoms persist consult your healthcare professional.

Antioxidant

Vitamin C is well documented for its antioxidant activity and is the subject of clinical trials worldwide.

Aids absorption of Iron

Vitamin C improves the efficiency of Vitamin E and the absorption of iron.

Melrose Commitment To You

We believe in the healing force of nature. Our commitment to you is to provide Vitamin C powders of exceptional quality at the best possible price. Our powders are thoroughly tested for potency and purity to world analytical standards. Packaging is done in TGA licensed premises complying with good manufacturing practice (GMP).

VIT B01

GOOD HEALTH FROM

Vitamin C

melrose

Are you sure you are getting the right amount of Vitamin C?

Vitamin C is one of fifty essential nutrients which must be obtained from food or supplements. There may be times in our lives when we need more Vitamin C. Cigarette smoking, stress, alcohol and ill health all increase your need for Vitamin C. In fact we would need 40 oranges to supply a teaspoon of Vitamin C.

Are you sure you get enough?

Melrose Vitamin C crystalline Powders are never out of season, you don't peel or squeeze them, and THEY are always low in price.

Vitamin C Calcium Ascorbate

Non Acidic Calcium Ascorbate Crystalline Powder means you can take it without acid upset. Your digestive system has an even greater tolerance to Calcium Ascorbate Vitamin C Powder because it is neutral (non acidic). Also highly recommended as a source of Calcium.

Vitamin C Sodium Ascorbate

Non Acidic Sodium Ascorbate Crystalline Powder is kind to your stomach and is more soluble than other forms of Vitamin C. Contains Ascorbic acid with Sodium ions. May not be suitable if you are on a low sodium diet.

Vitamin C Ascorbic Acid

Crystalline 100% Ascorbic Acid Powder is suitable for anyone wanting a simple form of Vitamin C. It has a tart taste and is a common food additive for nutritional factors. You can use it as a natural antioxidant preservative.

Vitamin C plus Bioflavonoids & Orange

A well balanced blend of three forms of Vitamin C : Calcium Ascorbate, Sodium Ascorbate and Ascorbic Acid. Enhanced with bioflavonoids Hesperidin and Rutin.

Melrose Vitamin C Crystalline Powder GUARANTEE

All Melrose Vitamin C Crystalline Powders are guaranteed to be of the highest quality. The tiny crystalline powders aid rapid solution in water or juice.

Vitamin Supplements should not replace a balanced diet.
